

# ~ VINTAGE NOTES *2001* ~

## HARVEST 2001:

A dry spring and warm summer brought us a bountiful harvest. Despite thinning fruit to our normal levels, the yields at harvest were over the 2T/acre target we normally hit. Fortunately the fall was also warm and dry allowing the vines to ripen perfectly, giving us extremely high quality fruit.

The Reserve blend is comprised of our star vineyards – Madrona, Abetina and Linda Vista – along with some newcomers in Gemini Vineyard and Winter’s Hill Vineyard.
